PPWR Compliance Statement

Dear Customer,

At JP Group A/S, we are committed to meeting all applicable legal and environmental requirements relating to packaging placed on the European Union market.

We confirm that JP Group A/S complies with the applicable requirements currently in force under the Packaging and Packaging Waste Regulation, Regulation (EU) 2025/40 (PPWR). We continuously monitor the development of the Regulation, including upcoming obligations, delegated acts, implementing measures and official guidance issued by the European Union.

Our internal processes, supplier requirements, packaging data and documentation are reviewed and updated as necessary to support continued compliance as new PPWR requirements become applicable. Our work includes relevant requirements concerning packaging design, material composition, recyclability, labelling, information and documentation.

JP Group A/S remains committed to adapting its packaging and compliance procedures in line with the applicable implementation timelines and technical requirements established by the European Union.

If you have any questions regarding PPWR, packaging information or related documentation, please contact your usual JP Group sales representative. Your sales representative is your primary contact and will coordinate any necessary follow-up within our organisation.

Thank you for your continued trust and cooperation.

Kind regards,

JP Group A/S Automotive

CEO

Torben Pagh
